DIETER MEYER CONSULTING GMBH

ORGANISATION	<u>MCON Dieter Meyer Consulting GmbH</u>
Profile	<p>MCON is based in the north-west of Germany, in Oldenburg/Lower Saxony. Our spatial focus is on the NUTS II regions Weser-Ems and Lüneburg with a total of 4 million people and an area of around 30,000 km². The company was founded in 1993. With a permanent staff of 18 colleagues, we mainly advise public customers at NUTS III level in the area of regional development and innovation and to finance relevant activities through national and European funding programs. On behalf of our customers, we also advise a large number of SMEs and NGOs.</p>
Previous experience in European projects	<p>MCON has developed and supervised the first EU projects for the region since 1995. These include the RIS Weser-Ems (regional innovation strategy), the Local Social Capital project (micro-project fund), SESAMES (Serving Subcontractors in the Automotive Sector), Youth for Innovation (youth / innovation), Know Hub (Enhancing Regional Competences in Strategic Management of Innovation Policies) or ESSPO (Efficient Support Service Portfolios for SMEs) as well as a large number of projects within the framework of INTERREG A. Our tasks were and are usually the support of the project development, the partner search, the application and often also the project management.</p>
Interests you have for future projects proposals	<p>We are always looking for European partners for our customers and their project ideas or we are happy to present them with project ideas from other regions of Europe and arrange the contacts. Due to the close contractual relationship with a total of 31 NUTS III regions, we have access to all topics of regional development and can also identify appropriate approaches to cooperation or find qualified partners at short notice.</p>
Project ideas	<p>We are currently particularly interested in opportunities for cooperation in the field of circular economy and hydrogen technology. The bioeconomy and the maritime economy are also of high importance in our region.</p>
3 key words	Regional development, Innovation, Europe
